Feathers and fruit tree - Assembly Instructions

Box content:

1. Plastic planter
2. One tree with feathers and fruit.

Assembling your tree:

1. Open the box carefully and remove contents from the box. (Do not use a sharp instrument)
2. Lay out all the parts; identify the bottom section (see figure A)and the top section (see figure B)
3. Insert the poleat the base of the tree and match up to the metal tube(see figure B) centered in the base of the pot.
4. Locate the battery box on the bottom of the tree
5. Insert 2 C batteries in the battery box (batteries**not included**)
